NATIONAL HIGHWAY SYSTEM PLANNED

Indiana Road Officials Will Be Represented at Regional Conference.

WASHINGTON, D. C., July 17.—An important regional conference at which Indiana state highway officials will meet officials of the federal government in planning a great national highway system is now being arranged by the authorities here.

The nationalization of the highways of the country is the purpose to be sought by this and other similar conferences. The plan of the department of agriculture is best expressed in the following authorized statement: "A system of highways that will serve the whole country and will be far superior to any other in the world is being mapped out by the federal and state engineers. It is estimated that the system will comprise 150,000 miles of road."

Indiana road officials and engineers will have an important part in the creation of this highway system de luxe. They will be asked to lay aside their local prejudices and look at the problem through national eyes. Beginning soon, all of the highways in Indiana of which federal money is to be spent will have to be selected with a view as to how they will articulate, or fit in, with this splendid national highway scheme.

The department is not quite ready to announce the place and date of the regional conference to which Indiana officials will be invited but it will take place some time during the summer or early fall. It will be attended by road officials of the following states: Indiana, Michigan, Kentucky and Illinois. The country has been mapped into 11 regions as a means of working out this problem of national highway system and Indiana is included in region No. 7. It is not certain, as yet, who will represent the government at the Indiana conference.

Prince Denies Betrothal to Mrs. Oscar Hammerstein

ELKHART, July 17.—(By L. N. S.)—Seven Indianapolis youths 16 and 17 years old and all members of well-to-do families, were arrested Monday as the result of an automobile accident here last week in which Josephine Burns, 18, was killed when a stolen automobile struck the car in which she was riding, and then sped away. Two of the boys are charged with manslaughter, and the other five with automobile stealing.

Arrests followed the apprehension of Frank Kamp, 17, by motorcycle policemen last night when he was arrested for speeding, police say, in the stolen car that figured in the accident. Kamp was charged with automobile theft. His confession, police say, resulted in the arrest of the other boys.

Samuel Wilson, 17, driver of the stolen car at the time of the accident and Albert T. Johnson, 17, were charged with manslaughter. The other four, charged with automobile stealing, are Harry McGuinn, 16, William Johnson, 16, Gordon Crowe, 17, and Robert Risley, 17.

Seven Arrested Following Fatal Automobile Accident

INDIANAPOLIS, July 17.—(By L. N. S.)—Seven Indianapolis youths 16 and 17 years old and all members of well-to-do families, were arrested Monday as the result of an automobile accident here last week in which Josephine Burns, 18, was killed when a stolen automobile struck the car in which she was riding, and then sped away. Two of the boys are charged with manslaughter, and the other five with automobile stealing.

COAL SHORTAGE MAY TIE UP LAKE TRAFFIC

DETROIT, July 17.—(By U. P.)—Unless the coal shortage is relieved immediately, indications here Monday pointed to the tying up of hundreds of lake steamers within 48 hours. Detroit coal docks are generally clear of coal and there is no immediate prospect of relief.

Mail service by boat between Detroit and the St. Clair state and other lake ports north will be suspended Tuesday, according to Postmaster John W. Smith of Detroit. The marine postoffice here, the only floating postoffice maintained by the government, will be temporarily suspended until relief comes.

The coal situation is more serious on the Great Lakes than has been generally believed, according to men high in shipping circles. One great shipping company, controlling more than 100 vessels, will start tying up its boats Tuesday unless coal is immediately available, it was learned on high authority.

OUR ROOFS ARE OUR PROOFS.

When better roofs are sold you can rest assured that it will be the Elabroated Roofing Co., 107 W. Division that is selling them. During years of business in this community we have made friends by the score and now when one wants information relative to an Elabroated Roof it is only necessary to ask your neighbor. AFFINITY OF PASTOR MAINTAINS HER LOVE

PORT HURON, Mich., July 17.—(The Rev. Wilson W. Culp is on his way back to Spring Valley, Ohio, today for unsharpening the doors of love. In 1906 he was put aboard a train last night bound for Xenia, Ohio, where he will be held until his trial.

Kether Hughes, with whom he eloped four months ago and for whom he abandoned his wife and nine children was released yesterday.

Mrs. Hughes and her daughter left Port Huron by boat within a few hours after the pastor started on his journey back to Spring Valley, where June 14 he eloped in an automobile furnished by his congregation for church work.

Mrs. Hughes, staunch in her belief in the purity of her child, stated she was going back home to ask the abolition of Rev. Culp. In the meantime the daughter will stay in an Ohio summer resort until the opening of a college selected by the mother when the 18 year old girl will enter school.

After three weeks working as a waitress in a Tashmore Park hotel while her erstwhile pastor was in the kitchen, the girl denounced those who condemned Rev. Culp and maintained that she would always love him.

"My most dearest and precious Wilson,"

"More precious than ever before," begins a letter written to Culp by Miss Hughes Sunday afternoon.

There was no sign of repentance or of diminished affection in the argument love note.

A poem—or a hymn,—obscure of her own composition is quoted in full, opening with the words:

"Does Jesus care when I've said good bye,

"To the dearest on earth to me,

"And my sad heart aches,

"Till it is broken,

"Is it aught to him, does he see?"

"I tried to sing those words the best I could through the tears in my cell," wrote the girl "I suppose you are in handcuffs now. I wish it could be me instead of you."

In another paragraph Miss Hughes expressed the belief that "Jesus is coming real soon. The main thing is to be ready for heaven, and dearest, will you meet me there?"

Referring to her grief-stricken parents, Miss Hughes wrote that her father "would rather have died than have this happen—he would rather have murdered me—mother never saw him cry before in his life."

In conclusion Miss Hughes advised Culp to "live with Mary the best that you possible can. If you can be happy with your children."

The prince who is now assistant to the manager of the Standard Oil Co. of New York in Smyrna, was wounded during the World War and was brought to a hospital at Vaidistock, where Dr. Work dressed his wounds. Prince Radomir, credited Dr. Work with saving his life, and visited him here last year.

In the letter from Smyrna, received by Dr. Work Monday, the prince declares there is no justification for the reported engagement, saying the only relation he ever had with Mrs. Hammerstein, was "when he sang in her concert two and a half years ago."

"I am as much a cousin of the king of Italy as he is," Radomir wrote referring to news dispatches saying he was related to the monarch.

CREDITORS PRESS CONSTRUCTION CO.

Kalamazoo Firm May Lose \$200,000 Niles Construction Contract.

NILES, July 17.—The Byers Brothers Construction Co. of Kalamazoo, which has been engaged to erect the new \$200,000 high school and the Trinity church community house here, may lose both of its Niles contracts, it is said, if it does not arrange for immediate payment of bills owed to sub-contractors for materials alleged to have been supplied them.

Within the past few days three suits have been filed against this company in the circuit court at St. Joseph. The International Brick and Iron Co., their largest creditor, is suing for \$10,000 payment on material alleged to have been supplied by Byers Brothers, the bill for which, due June 10, has not yet been paid. The actual value of this material has been placed at \$5,000.

David and Henry Williams of Niles are suing for \$3,000 to recover payment of a bill amounting to \$2,495.05, which they claim was due from Byers Brothers on July 5.

A. Kerr of this city, local hardware dealer, also charges that the company owes him \$642.28 for materials furnished the contractor. All three plaintiffs are represented by Burns and Hadsell, Niles attorneys.

In case Byers Brothers are unable to meet these suits, payment will devolve upon the United States Fidelity and Guaranty Co. of Baltimore, Md., which gave a bond of \$197,773 to assure construction of the high school building by the defendant.

In an effort to protect the school district from any loss, the Niles school board has employed Philip A. Hadsell of this city as counsel in this matter. Thus far the board has been perfectly satisfied with the manner in which the construction work on the building has been carried on, and it is hoped that Byers Brothers will be able to continue with the contract the same as originally planned. Precautions will be taken, however, to insure the district that they will receive the building at the price it is contracted for, according to Mr. Hadsell.

ORE SHIPMENTS FROM MARQUETTE SHOW GAIN

MARQUETTE, Mich., July 17.—More than seven times as much ore was shipped from Marquette up to July 1 this season as was shipped during the same period last year, and more than six times as many boats have been loaded at Marquette docks.

Last year to July 1, 57,190 tons of ore were shipped at the Lake Superior and Atlantic docks, but only 3,396 tons. A little more than one-fifth of this amount has been shipped from the South Shore dock.

Since July 1, the movement of ore has been heavier than at any time during June. It is expected the July movement from the Lake Superior district will amount to 10,000,000 tons, and that it will be one of the heaviest months recorded in years from Marquette docks.

The increase in tonnage from this port was 735 percent and the increase in the number of boats was over 600 percent.

WOMAN COMES BACK TO LIFE

You have often heard of women being crippled and helpless from years of rheumatic trouble. A woman who has been bedridden for years tried our PRESCRIPTION 1900 and is now lively as a cricket. Others have found remarkable relief in it. Why not you. Call Landon Drug Store Company, Corner Michigan and Wayne.

SPENT HALF HER TIME IN BED

Farmer's Wife Tells How Lydia E. Pinkham's Vegetable Compound Made Her a Well Woman

Carter's Creek, Tenn. — "Three years ago I was almost an invalid. I spent half of my time in bed, being afflicted with a trouble which women of a certain age are apt to have. I took Lydia E. Pinkham's Vegetable Compound and used Lydia E. Pinkham's Sanative Wash. I am a well woman now and have been for two years. I can work as well as any one who is younger and as I am a farmer's wife I have plenty to do for I cultivate my own garden, raise many chickens and do my own housework. You may publish this letter as I am ready to do anything to help women as I have been so well and happy since my troubles are past."—Mrs. E. T. Galloway, Carter's Creek, Tenn.

Most women find plenty to do. If they are upset with some female ailment and troubled with such symptoms as Mrs. Galloway had, the smallest drug seems a mountain.

If you find it hard to keep up, if you are nervous and irritable, without ambition and out of sorts generally, give the Vegetable Compound a trial.

Economical trucking in this section is done on Goodyear All-Weather Tread Solid Tires.

The tractive grip of their slipless tread on grades and on slippery streets keeps the load rolling, protects the truck from racking strain, and saves engine fuel.

The resilience of the Goodyear All-Weather Tread Solid Tires—springier than many so-called cushion tires—cushions the truck, prolonging its working life.

Traction, cushioning, long life—and the added advantage that it can be re-grooved easily and cheaply—make it the tire of lowest cost per mile.
